

Want to get the experience you need to jump start your career in Front end development? You're in luck - we're looking for an intern to join our corporate IT team, that's responsible for the full software development life cycle, from conception to deployment.

#### Responsibilities

- Build the front-end of applications through appealing visual design
- Learn and apply microservice, API and integration development
- Test software to ensure responsiveness and efficiency
- Troubleshoot, debug and upgrade software
- Build features and applications with a responsive design
- Write technical documentation

#### Requirements

- Knowledge of multiple front-end languages and libraries (e.g. HTML/ CSS, JavaScript, XML, jQuery)
- Knowledge of php and some JavaScript frameworks (e.g. Angular, React, Node.js)
- Familiarity with databases (e.g. MySQL, MSSQL, MongoDB), and UI/UX design
- Excellent communication and teamwork skills
- Great attention to detail
- Excellent verbal and written communication skills in Greek & English

#### What's in it for you:

- Full Training will be provided
- A dynamic challenging environment resulting continuous learning/education/progression
- Ability to work with cutting edge technologies.
- Pleasant working environment
- Ability to expand knowledge and responsibilities
